The examiner acknowledges the amendment filed 6/9/08. Claims 1-8 remain pending. The examiner notes that the previous Office action grounds of rejection sharing assignment with the instant application, And sincerely regrets any inconvenience.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –  
(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-8 are rejected under 35 U.S.C. 102(e) as being anticipated by either of US Pat. Applns. 2006/0169686 or 2006/0191892.

The applied references have a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Referring to Fig. 3 and par. [0105]-[0107] of US'892, or Fig. 3 and par. [0074]-[0079] of US'686, there is disclosed the invention exactly as claimed, including a single blower 26 and a damper 45 which exhausts air when the door is opened.
